

BMEimaging- the document people' COVID-19 Readiness Policy

Updated: March 16, 2020, 10:15 am

The COVID-19 concern is evolving at a quick pace, and our main concern is the safety of our team, customers and community.

Bmeimaging has procedures in place such as limiting non-essential travel and working from home. We leverage technologies such as TeamViewer to communicate and collaborate while working remotely. These processes enable us to continue to provide the highest level of service possible while protecting the well-being of our team.

Our thoughts are with those that have been directly affected by COVID-19. The Bmeimaging team is committed to continuing to support your organisation during this time and we thank you for being a loyal customer. Please reach out directly if you have any questions or concerns, and if you need support please contact support@bmeimaging.co.uk.
